

PISTOLS & HOME PROTECTION

A blue-tinted photograph of a sandstorm. The sky is a deep, clear blue, and a thick layer of sand is being blown across it, creating a hazy, whiteish-yellow mist. In the foreground, the dark silhouettes of trees and bushes are visible against the lighter sky. The overall mood is one of a harsh, dangerous environment.

When howling sandstorms raged during Operation Iraqi Freedom, America's troops counted on their Beretta M9 pistols when danger threatened. More than 450 years of gunmaking tradition, combined with the best of today's materials and engineering, meant they carried sidearms built to stand up to every hazard. Whether you're selecting a pistol for service or sport, Beretta autoloaders and revolvers are guns you can trust!

U22 NEOS

Neos means "new" in Greek, and Beretta's American design staff started with a clean sheet when drawing up this new line of .22 pistols. The lines are meant to appeal to a new generation of shooting enthusiasts who are respectful of the past while bringing a fresh attitude to the shooting sports. The Neos pistols feature cutting-edge design, modular

construction that allows personalization and the flexibility for many shooting disciplines. Available at popular prices, the Neos is ideal for new shooters, but it won't easily be outgrown as skills improve.

U22 NEOS

The advanced shooter demands more control, and gets it in the Neos DLX. The best in off-hand accuracy comes from a trigger adjustable for takeup and overtravel. Front sight posts in black, red and white match rear sight leaves outlined in the same colors. Blue or gray (for the Inox

version) soft rubber grip inserts. An aggressive grip molding pattern makes the grasp secure when match pressure gives even the seasoned competitor moist palms. Select the standard 6" barrel or specify the extra sight radius of the 7½" barrel.

U22 NEOS

The modular design and parts interchangeability of the Neos make it the top value in its class, with category-leading features at an affordable price. Grip frames in a variety of colors and interchangeable rubber inserts make it easy for the user to personalize the Neos from mild to wild. All three barrel lengths (4½", 6" and 7½") are fitted with integral rails that accept all standard

Weaver-style rings for easy scope mounting. Changing barrels doesn't mean rezeroing, either: both front and rear sights are fixed to the integral rail and stay with the barrel. Neos is a pistol that can grow and change to fit your shooting interests, from plinking to small game hunting to competition.

U22 NEOS MODULAR SYSTEM BARRELS, SIGHTS, AND GRIP FRAMES EASILY INTERCHANGE TO PERSONALIZE YOUR PISTOL.

ACCESSORY BARREL ASSEMBLY

10-ROUND MAGAZINE INCORPORATES A LOADING BUTTON TO MAKE RELOADING EASY AND COMFORTABLE.

ERGONOMIC GRIP FRAME
NEWLY DESIGNED FIBERGLASS-REINFORCED TECHNO POLYMER GRIP FRAME IS COMFORTABLE TO HOLD. SPECIAL TEXTURING PATTERN HELPS GUARANTEE A FIRM HOLD EVEN UNDER RAPID FIRE CONDITIONS.

*CARBINE KIT MAY NOT BE SOLD IN CALIFORNIA. WARNING: A RIFLE WITH A BARREL LESS THAN 16 INCHES IN LENGTH IS CLASSIFIED AS A "SHORT BARRELED RIFLE" AND MUST BE REGISTERED AS SUCH WITH THE BATF IN ACCORDANCE WITH THE NATIONAL FIREARMS ACT. CONSULT YOUR LOCAL BATF OFFICE FOR REGISTRATION INFORMATION (SOME STATES DO NOT ALLOW REGISTRATION OF SHORT BARRELED RIFLES; CONSULT YOUR LOCAL AUTHORITIES FOR MORE INFORMATION).

92/96

From the jungle heat of Panama to the sandstorms of Iraq, the U.S. Armed Forces have counted on Beretta pistols for almost two decades of distinguished service. The 92FS most resembles the military M9 9mm pistol, while the 96 offers the same features, but is chambered for the popular .40 S&W cartridge.

Both are available with the heavier, recoil-reducing Brigadier slide and in blue or Inox finishes. It's even easier to master your Beretta when you add the 22LR Practice kit, which adapts the 92 or 96 pistols to fire inexpensive .22 Long Rifle ammunition.

**22LR PRACTICE KIT
J9022PK**
BUILD YOUR SHOOTING SKILLS WITH THE OPTIONAL .22 CONVERSION KIT FOR THE 92/96 PISTOLS. IT'S EASILY INSTALLED AND REMOVED.

* Check State and Local regulations on magazine capacity

The "F"-series pistols of the 92/96 family have a safety system that combines decocking with a positive thumb safety. The Inox models feature stainless steel slide and barrel

construction, as well as rubber grips. Beretta's proprietary black Bruniton finish gives your 92/96 a wear-resistant coating which means these pistols will stand up to any special duty.

NO GLARE FINISH

BERETTA'S EXCLUSIVE BRUNITON NON-REFLECTIVE MATTE BLACK FINISH IS A SUPERIOR CORROSION RESISTANT COATING.

COMBAT MUZZLE CROWN

DEEPLY RECESSED TO PROTECT RIFLING. BORE AND CHAMBER ARE CHROME LINED.

DISASSEMBLY LATCH

CONVENIENTLY LOCATED TO SIMPLIFY FIELD STRIPPING AND MAINTENANCE. BASIC FIELD STRIPPING CAN BE ACCOMPLISHED WITHOUT THE USE OF TOOLS.

LIGHT ALUMINUM FRAME WITH COMBAT-STYLE TRIGGER GUARD

SQUARED OFF AND GROOVED FOR A FIRM GRIP USING ONE OR TWO HANDS, EVEN WHEN WEARING GLOVES. THE FRAME IS MADE FROM AIRCRAFT QUALITY "ALUMINUM ALLOY".

REVERSIBLE MAGAZINE RELEASE

POSITIONED ALONGSIDE THE TRIGGER GUARD FOR EITHER RIGHT OR LEFT HANDED SHOOTERS. ALLOWS FAST RELOADING; THE MAGAZINE DROPS COMPLETELY FREE WHEN RELEASED.

SURE, FIRM GRIP

THE FRONT AND BACK OF THE GRIP ARE GROOVED, AND THE GRIP FRAME IS FLARED SLIGHTLY AT THE BOTTOM TO ENHANCE POINTABILITY AND CONTROL DURING FIRING.

OPEN SLIDE DESIGN

OPEN TOP SLIDE VIRTUALLY ELIMINATES JAMMING OR STOVEPIPING. 180° OPEN EJECTION PORT ALLOWS THE USER TO LOAD THE CHAMBER, ONE CARTRIDGE AT A TIME SHOULD THE MAGAZINE BE LOST OR DAMAGED.

AUTOMATIC FIRING PIN BLOCK

THE FRONT PART OF THE FIRING PIN IS BLOCKED FROM ANY FORWARD MOVEMENT UNTIL THE TRIGGER IS PULLED COMPLETELY BACK. EVEN IF THE PISTOL FALLS AND STRIKES THE GROUND MUZZLE-DOWN, THE FIRING PIN WILL NOT STRIKE THE PRIMER.

AMBIDEXTROUS SAFETY ('F' MODELS)

EASILY ACCESSIBLE BY THE THUMB OF A RIGHT OR LEFT HANDED SHOOTER, SPRING-LOADED SO THE SAFETY IS EITHER POSITIVELY "ON" OR POSITIVELY "OFF". THE SAFETY LEVERS ALSO FUNCTION AS THE PISTOL'S DECOCKING LEVERS. WHEN PUSHED DOWN, THE REAR PART OF THE FIRING PIN (STRIKER) IS ROTATED OUT OF ALIGNMENT WITH THE FRONT PART OF THE FIRING PIN.

RADIUSED BACK STRAP

THE TOP OF THE GRIP AREA IS PRECISELY CURVED AND RELIEVED FOR A FIRMER, MORE COMFORTABLE GRIP.

LANYARD LOOP

ALLOWS FOR POSITIVE RETENTION OF PISTOL.

92/96

The 92/96 Steel I has been designed with the competitive shooter in mind, that desire the recoil reducing benefits of a steel frame, this pistol also features Beretta's slim "vertical" grip, frame mounted safety and nickel alloy finish. Available in double/single and single action only, both in 9mm and 40 S&W.

Nothing reduces recoil like a little extra weight, and Beretta engineers added it to this full-race competition pistol by specifying a steel frame. When you combine a bit more heft with the M1911-style Vertec grip style, you have a soft-shooting 9mm or .40 S&W pistol that's ready for the range, right out of the box. Choose single- or double-action variants to match your shooting style.

Developed to meet the “Special Duty” requirements of elite law enforcement and military units, this advanced pistol is also ideal for IDPA competition shooting. The “G” decock-only mechanism guarantees that the pistol is always ready to fire, eliminating the possibility that the safety is accidentally left engaged during stressful competitive shooting events. The “SD” features an integral accessory rail machined into the frame to attach a variety of popular white light and laser devices.

The Brigadier style recoil-reducing heavy slide, and removable front and rear Trijicon 3-dot tritium sights come standard. The frame is customized to include front and back strap checkering and an aggressively beveled magazine for faster reloading. The stainless barrel, finished in our proprietary Bruniton™ finish, boasts a machined target crown. The extended magazine button allows for quick magazine drops.

92/96

As the name implies, the Elite pistols are for advanced competition shooters who want to carry only the best when gunning for IDPA and IPSC championships. The “IA” model combines a slim vertical grip frame with the integral accessory rail of the Vertec and the Brigadier slide. Practical competitors will like the forward slide serrations, skeletonized hammer, beveled magazine well and

stainless barrel cut flush with the front of the slide. Like the “IA”, the Elite II uses the “G”-style decocker lockwork, but with the traditional curved-butt Beretta frame. It adds a stainless steel slide with Novak rear and thin serrated front sights. Both guns feature beveled magazine wells and a flush hammer spring cap that deletes the lanyard loop of the service models.

TARGET MUZZLE CROWN

THE END OF THE SHORTER FLUSH-CUT BARREL IS PROTECTED BY A DEEP TARGET CROWN. THIS GIVES THE ELITE II SHOT-TO-SHOT CONSISTENCY SECOND TO NONE.

BRIGADIER SLIDE

HEAVY WEIGHT SLIDE REDUCES RECOIL AND MUZZLE FLIP ALLOWING FOR FAST FOLLOW UP SHOTS. EXTRA SERRATIONS ON THE SLIDE MAXIMIZE THE SHOOTER'S CONTROL OF THE SLIDE.

LASER MARKINGS

SPECIAL MARKING ON THE SLIDE IDENTIFY THIS PISTOL AS BEING “ELITE.”

LOW PROFILE SIGHTS

ELITE II COMES COMPLETE WITH LOW PROFILE NOVAK REAR SIGHT AND THIN SERRATED FRONT SIGHT. THIS COMBINATION INSURES A SMOOTH DRAW AND ACCURATE FIRE.

TWO TONE

STAINLESS STEEL SLIDE AND BARREL CONTRAST WELL WITH BLACK FRAME.

DECOCKER ONLY

9000S

There's no doubt you're looking at a work of art when you see the Beretta 9000S. Its styling, by legendary Italian design house Giugiaro, is one-of-a-kind. Soft wrap-around polymer grip insert makes it easy to grasp in the toughest conditions, and resistant to corrosion. It's available in both 9mm Parabellum and .40 S&W calibers, both with 10-round magazines.

It will accept "pre-ban" 92/96 magazines for increased capacity (using optional adapter). An extendable magazine "bottom", that extends $1\frac{1}{32}$ " when the pistol is drawn and retracts when it is holstered, is included. (See Pistol Pro Shop section for details.)

THE 9000S IS SIMPLE, ROBUST AND RELIABLE: THE HALLMARKS OF A PISTOL YOU CAN COUNT ON.

THE POLYMER FRAME MAKES THE 9000S BOTH COMFORTABLE TO SHOOT AND RESISTANT TO CORROSION AND WEAR.

EXPERTS PREFER A DOUBLE-ACTION TRIGGER IN A PISTOL DESIGNED FOR CONCEALED CARRY.

9000S TYPE F J909F10

CHROME-PLATED BARREL

SLIDE
IT IS MANUFACTURED FROM STEEL ALLOY, SAND-BLASTED, PHOSPHATED AND BRUNITON FINISHED FOR MAXIMUM CORROSION RESISTANCE AND DURABILITY.

SIGHT SYSTEM
THE WHITE 3-DOT SIGHT IS DESIGNED FOR QUICK TARGET ACQUISITION. BOTH THE REAR AND FRONT SIGHTS ARE DOVETAILED TO THE SLIDE FOR WINDAGE ADJUSTMENTS AND MAY BE REPLACED.

EXTERNAL HAMMER
THE EXTERNAL HAMMER RETAINS THE TRADITIONAL BERETTA DESIGN WITH THROUGH-HOLE AND GRIPPING SERRATIONS.

ERGONOMIC GIUGIARO DESIGN
THE DISTINCTIVE GIUGIARO DESIGN IS AESTHETICALLY AND FUNCTIONALLY SUPERIOR.

ERGONOMIC GRIP
FEATURING A SOFT YET DURABLE POLYMER INSERT, THE GRIP ABSORBS VIBRATIONS AND ENSURES POSITIVE PISTOL RETENTION.

GEOMETRIC LOCKING SYSTEM WITH TILT BARREL
THE INNOVATIVE AND PATENTED LOCKING SYSTEM IS BASED ON DIRECT BARREL-TO-SLIDE ENGAGEMENT. THE ABSENCE OF ANY INTERMEDIATE LOCKING COMPONENTS INCREASES THE DURABILITY OF THE FIREARM.

TECHNOPOLYMER FRAME
THE USE OF THE LATEST GENERATION GLASS-REINFORCED TECHNOPOLYMERS REDUCES THE OVERALL WEIGHT OF THE PISTOL.

FIREPOWER
TWO HIGH CAPACITY MAGAZINES (10 ROUNDS) ARE INCLUDED WITH EACH PISTOL. THE MODEL 9000S ALSO ACCEPTS THE MAGAZINES OF THE 92 SERIES PISTOLS WITH THE USE OF AN OPTIONAL ADAPTER.

COMPACT DIMENSIONS
THE REDUCED DIMENSIONS, ESPECIALLY IN LENGTH AND HEIGHT, MAKE THIS PISTOL PARTICULARLY CONVENIENT FOR CARRY.

PROMINENT TRITIUM-FILLED SIGHTS GIVE THE TOMCAT TRITIUM A BOLD SIGHT PICTURE IN LOW-LIGHT CONDITIONS.

TIP-UP BARREL
OFFERS QUICK, DIRECT CHAMBER LOADING AND UNLOADING WITHOUT WORKING THE SLIDE. THIS MAKES THE TOMCAT IDEAL FOR BEGINNERS AND ELDERLY SHOOTERS WHO LACK THE STRENGTH TO RETRACT THE SLIDE MANUALLY.

BARREL
FORGED OUT OF SPECIAL HIGH STRENGTH STEEL; PRECISELY RIFLED FOR ACCURACY. INOX MODELS FEATURE STAINLESS STEEL BARRELS.

SLIDE
MACHINED OUT OF HIGH-STRENGTH CARBON STEEL AND SPECIALLY HEAT TREATED. INOX MODELS FEATURE STAINLESS STEEL SLIDES.

SIGHTS
FIXED, LOW PROFILE NOTCHED REAR SIGHT IS DOVETAILED INTO THE SLIDE. BLADE FRONT SIGHT OFFERS FAST TARGET ACQUISITION.

SAFETY
MANUAL, CONVENIENTLY THUMB OPERATED. LOCKS SLIDE IN PLACE.

CONTOURED TANG
TOP OF THE GRIP AREA IS PRECISELY CURVED AND RELIEVED TO SNUGLY ACCOMMODATE THE SHOOTER'S HAND, PROTECTING THE THUMB WEB OF THE SHOOTER'S HAND FROM BEING PINCHED BY THE SLIDE.

MAGAZINE RELEASE
PROTECTED BY GRIP TO PREVENT ACCIDENTAL RELEASE.

FRAME
MADE OF SOLID ALLOY FORGINGS AND ANODIZED BLACK OR GRAY.

SNAG-PROOF DESIGN
THE SMOOTH CONTOURED EDGES ON THE FRAME AND SLIDE PERMIT QUICK PRESENTATION OF THE PISTOL TO THE TARGET.

TRIGGER PULL
SMOOTH, CRISP PULL IN DOUBLE/SINGLE ACTION.

Cx4 STORM

Beretta's Cx4 Storm redefines the pistol-caliber carbine, with racy and radical lines from the masters of industrial design at Giugiaro. Form follows function in a symphony of smooth, sweeping curves made possible by the use of modern high-strength technopolymers. Beretta's use of cutting-edge materials also keeps weight down to just 5¾ lbs., making the Cx4 a pleasure

to carry, whether in the field or on duty. Five different models accept full-size Beretta magazines from the 92/96 and Cougar series pistols in 9mm, .40 S&W and .45 Auto, including large-capacity restricted and pre-ban styles. The cold hammer-forged 16.6-inch barrel is chrome-lined for long life and corrosion resistance with any ammo.

SIGHTS
FRONT SIGHT IS FULLY ADJUSTABLE FOR WINDAGE AND ELEVATION. THE REAR SIGHT HAS TWO APERTURES FOR LONG AND SHORT RANGE USE. BOTH MAY BE FOLDED DOWN WHEN OPTICS ARE USED.

ACCESSORY RAILS
MAY BE ADDED TO THE TOP, SIDE AND BOTTOM OF THE CX4. INTERNAL RAIL MAY BE EXTRACTED FROM THE FRONT OF THE CX4 BY PUSHING IN ON THE FRONT SLING SWIVEL.

SEMIAUTOMATIC, STRAIGHT BLOWBACK OPERATION
SIMPLE, RUGGED AND RELIABLE OPERATING SYSTEM.

REVERSIBLE CONTROLS
EXTRACTOR, EJECTOR, OPERATING HANDLE, EJECTION PORT COVER, MAGAZINE RELEASE, AND MANUAL SAFETY BUTTON ARE REVERSIBLE FOR RIGHT OR LEFT HAND USE.

BOLT RELEASE LEVER
ALLOWS CLOSING OF THE BOLT WHICH REMAINS IN THE OPEN POSITION AFTER THE LAST ROUND FROM THE MAGAZINE HAS BEEN FIRED. (WITH THE MAGAZINE INSERTED.) THIS PERMITS THE USER TO IMMEDIATELY DETERMINE THAT THE CARBINE DOES NOT HAVE A ROUND IN THE CHAMBER OR MAGAZINE.

RUBBER CHEEK PIECE
ALLOWS THE OPERATOR TO COMFORTABLY MAINTAIN TIGHT CONTROL OF THE FIREARM EVEN WHEN WET.

ADJUSTABLE STOCK
STOCK SPACERS ALLOW THE USER TO INCREASE THE LENGTH OF THE STOCK BY .60 INCHES PER SPACER.

BARREL
16.6 INCHES IN STEEL, COLD HAMMER FORGED, CHROME LINED.

Cx4 CARBINE
JX49210

TECHNOPOLYMER FRAME
ULTRA TOUGH, LIGHT, TECHNICALLY ADVANCED FIREARM. TECHNOPOLYMER GUARANTEES CORROSION RESISTANCE AND COLOR CONSISTENCY.

SIMPLE FIELD STRIPPING
BY REMOVING ONE FRICTION-FIT PIN THE CX4 MAY BE COMPLETELY DISASSEMBLED FOR EASY CLEANING.

SINGLE ACTION TRIGGER
SHORT, LIGHT SA TRIGGER ALLOWS FOR FAST, ACCURATE DISCHARGE OF SUBSEQUENT ROUNDS.

REMOVABLE MAGAZINE
THE CX4 STORM IS ABLE TO UTILIZE THE SAME MAGAZINES AS THE 92/96 AND 8000/8040/8045 COUGAR PISTOL SERIES.

SLING SWIVELS
COME PREINSTALLED IN THE FRONT AND REAR PART OF THE STOCK. SLING LOOP ATTACHMENT POINTS ARE LOCATED ON BOTH SIDES OF THE BUTT STOCK ALLOWING FOR A VARIETY OF SLING CONFIGURATIONS.

Cx4 STORM

The Cx4 is unsurpassed in its adaptability for right- or left-handed users. Ejection and operating handle can be switched from the standard right side to the left without the use of tools or spare parts. The crossbolt safety and magazine release are reversible for the left-hander, too. The firing pin and hammer are blocked until the trigger is pulled, and a bolt safety locks the bolt to prevent it

cycling should the Cx4 be dropped on its butt. The magazine is protected inside the grip, helping keep it safe from damage in vigorous maneuvers. Sling studs and loops on both sides of the butt stock allow a variety of sling configurations for comfortable carrying.

SIDE AND BOTTOM ACCESSORY RAILS ALLOW EASY MOUNTING OF TACTICAL LIGHTS, LASERS AND OTHER ACCESSORIES. ONE SIDE RAIL INCLUDED. BOTTOM ACCESSORY RAIL AVAILABLE AS ACCESSORY.

* Without stock spacers installed ** Adjustable with stock spacers

Cx4 STORM

Unlike folding-stock carbines, the Cx4 is comfortable to fire, with a rubber comb insert for a comfortable cheek rest. Adding spacers allows length of pull adjustment from 13 to 15 inches in .6 inch increments, letting the Cx4 fit users of all heights and making it easy to accommodate winter clothing, protective vests and other gear. Today's shooter demands a gun that can accept a

large assortment of accessories, and here the Cx4 caters for all tastes. A retractable accessory rail extends from the fore-end for mounting tactical lights. Rails can be installed on either side or the bottom of the fore-end for lasers or forward grips.

ADJUST PULL LENGTH TO YOUR SPECIFICATIONS WITH SUPPLIED SPACER. (TWO MORE SPACERS MAY BE ADDED AND REMOVED)

THE OPTIONAL PICATINNY (MIL-STD-1913) TOP RAIL ALLOWS EASY INSTALLATION OF DOT SIGHTS OR SCOPES.

THE OPTIONAL CARRYING CASE PROTECTS THE CX4 FROM THE ELEMENTS.

Cx4 STORM

Controls are very similar to those found on our popular 92FS pistol, so most shooters will be immediately familiar with the operation of this firearm. Length of pull can be lengthened in .6" increments, from 13" to 15" by addition one to three stock spacers (one provided). Multiple sling attachment points allow a multitude of carry options. A retractable forward accessory rail extends out from the fore-end, allowing quick mounting of a tactical light or laser unit.

Hard mounting points allow the addition of various accessories, including side, top and bottom "Picatinny" rails. These will accept optics, tactical lights, lasers and vertical grips. One side rail is included. The front post sight is adjustable for windage and elevation, while the rear sight has long-range and ghost ring apertures. Both sights are protected by rugged "ears" and may be folded down when optics are used.

Cx4Storm

Px4 STORM **NEW**

INDIVIDUALIZED PERFORMANCE. The Px4 Storm is built around a modular concept so that a single pistol can be adapted to different needs. This without compromising on the legendary ergonomics, reliability and performance for which Beretta is rightfully known. Available in 9mm

and 40 S&W; this pistol features the F-type single-action/double-action firing mechanism with de-cocker and manual safety.

PX4 STORM
JXF9F11

FLUSH AND OPTIONAL LANYARD HAMMER SPRING CAPS, ALLOW FOR THE USE OF TACTICAL RETENTION LANYARD.

STANDARD SUPER-LUMINOVA SIGHTS GIVE HIGH TARGETING PERFORMANCE IN ALL TYPES OF LIGHT CONDITIONS. WITH MINIMAL EXPOSURE TO LIGHT (OR FLASHLIGHT), THIS LUMINOUS MATERIAL IS "CHARGED" AND VISIBLE IN LOW-LIGHT.

SAFETY/DECOCKER LEVER GEOMETRY PREVENTS ACCIDENTAL ENGAGEMENT OR DISENGAGEMENT WHEN RETRACTING SLIDE.

The Px4 can be adapted to different levels of concealment or to different hand-sizes, concealment modes and shooting styles. The back-strap can be customized to three sizes; the safety lever and magazine-release button come in two additional sizes to accommodate a smaller or larger grip.

Thanks to these options, the same powerful and reliable handgun can be adapted to fit diverse needs and uses.

INTERCHANGEABLE GRIP BACKSTRAPS ALLOW FOR CUSTOMIZATION TO THE INDIVIDUAL'S HAND SIZE. MEDIUM COMES STANDARD ON THE GUN, WHILE SMALL AND LARGE ARE INCLUDED IN THE BOX FOR EASY MODIFICATION.

MULTIPLE-SIZED, REVERSIBLE MAGAZINE RELEASE BUTTONS ALLOW FOR CUSTOMIZATION TO THE INDIVIDUAL'S HAND SIZE. SMALL SIZE COMES STANDARD ON THE GUN, WHILE MEDIUM AND LARGE BUTTONS ARE INCLUDED IN THE BOX FOR EASILY REPLACEMENT. EACH SIZE CAN BE POSITIONED FOR RIGHT-HANDED OR LEFT-HANDED USE.

MIL-STD-1913 "PICATINNY" STANDARD ACCESSORY RAIL. ALLOWS MOUNTING OF OPTIONAL TACTICAL LIGHTS AND LASER UNITS.

Px4 STORM **NEW**

When not in use, the Px4 Storm pistol is extremely easy to disassemble and service without tools. Furthermore, its integral modified Picatinny MIL-STD-1913 renders it readily adaptable to a host

of accessories. Each Px4 Storm pistol comes equipped with two magazines, a cleaning brush, the operator manual and a plastic carrying case.

SIMPLIFIED FIELD STRIPPING. THE PX4 CANNOT BE REASSEMBLED INCORRECTLY.

THE PX4 FEATURES A CAPTIVE RECOIL SPRING ASSEMBLY WITH INTEGRATED RECOIL BUFFER. THESE FEATURES HELP REDUCE FELT RECOIL AND MINIMIZE MUZZLE RISE.
