THE BERGARA MISSION

BERGARA makes rifles that are defined largely by their excellent technical specifications and an extremely efficient design to ensure they are high-performance firearms. Their handling is special and unique.

The rifle is safe, calibrated and prepared for a smooth and accurate shot. It is strong and simple to handle. Manufactured piece by piece, it has been designed to ensure a fully modular arrangement.

ABOUT US

BERGARA is a manufacturer of prestige in the USA, widely known in the sector and positioned in a key environment. It is remarkable for its enormous scope for development and huge potential for rolling out new products with an excellent quality-price ratio.

The **BERGARA** range of rifles restores the firearms tradition that is typical of the area in which these arms are made and found. Furthermore, **BERGARA** has the experience of **Bergara Barrels** as a manufacturer of gun barrels and its widespread understanding of the US market under the CVA brand, thereby reinforcing its consolidated position on the firearms market.

TECHNOLOGY

These are firearms that are defined by the highest quality, based on a protracted track-record of technological expertise, which is an assurance of their utmost efficiency and operation.

The true value does not just involve the product itself, but extends to its deployment and the user's experience.

Designed to do away with the need for any other accessory to improve its performance, this is a product of apparent simplicity, yet one that is complete, sporting and ultra-accurate, transferring a feeling that is difficult to describe and which can only be fully appreciated through actual use.

Try it out!

GUARANTEE

BERGARA is a manufacturer equipped with the latest resources, with a huge capacity for innovation and developing products and technologies of the highest quality. It has consummate experience in engineering to provide balanced rifles with the right weight, a firm and comfortable grip and carefully studied lines to ensure an unbeatable shooting position, all of which ultimately lead to greater accuracy. Bergara knows that its firearms are highly efficient, with superior technology and great precision.

In the one word, **BERGARA** manufactures products of boundless quality and stands at the forefront of the sector.

Apex

Apex is an excellent centerfire rifle designed according to the latest technologies and expert know-how. The result is a rifle that is sporting, ultra-accurate, light, and easy to use and maintain.

BERGARA APEX

A single-shot rifle made of stainless or carbon steel, fitted with a barrel made by **Bergara Barrels**, tested in competition, in different calibers that are fully interchangeable by the user in a simple procedure that does not require complicated assembly processes.

The barrels are made according to a proprietary button rifling system, following the drilling and polishing processes with the most technologically advanced machinery in the barrel-making process.

Fluted barrels.

Safety locking device for cocking process - fall proof.

Adjustable trigger with between 1.5 kg and 2 kg of pull weight.

Ambidextrous stock and handguard with a black finish, Realtree APG HD Camo and wooden Camo, and highly-resistant Soft touch materials.

Attachment for fitting a sight base. Only the carbon steel version with a wood finish is supplied with fitted front and rear sights.

A modular and accurate firearm, with different configurations thanks to its fully interchangeable barrels, available in a range of finishes and calibers to suit the end user.
