### Model 917V - Also Available with Mounted Scope

Here's fast company for small-bore hunters. Chambered for the 17HMR, our popular Model 917 bolt actions zip a high-performance polymer-tipped bullet downrange at 2,500+ feet per second – that's 25% more velocity than the 22 Win. Mag. This hot little cartridge delivers devastating on-game performance with a laser-flat trajectory. The rock-solid, super-accurate Model 917V features a heavy 22" barrel, double bedding screws and special inletting to enhance stability and shot-to-shot consistency. Our T-900 Fire Control trigger system produces an extremely consistent trigger pull with an ultra-clean break. Included is a 4- and a 7-shot clip magazine. The rugged walnut-finished hardwood Monte Carlo stock comes with sling swivel studs. Receiver is drilled and tapped and grooved for your choice of convenient scope mounting. Also available with a factory-mounted and boresighted 3-9x32mm scope.

**All** Marlin bolt action rimfire rifles feature the new T-900 Fire Control System
