MODEL 110 SERIES

Rifles in this series have many different features for many different purposes. But every one of them is built on the legendary Model 110 action, the most accurate factory action ever. The 110 Series has a fresh look and a full complement of improvements. Select models feature the AccuFit™ system, which lets you lock in a custom fit for fast target acquisition and enhanced accuracy.

VARMINT SERIES

Prairie dogs, beware. The Savage Varmint Series raises the bar on accuracy, thanks to features like our revolutionary AccuTrigger™, button-rifling, free-floating barrels and a variety of stock configurations. Unlike most manufacturers, with Savage you can select different rates of twist in certain calibers to help stabilize different weight bullets. Whichever model or configuration you choose, even long distances and fickle prairie winds won't be enough to save varmints that linger in your crosshairs.

LONG RANGE SERIES

Rifles in this series have many different features for many different purposes. But every one of them is built on the legendary Model 110 action, the most accurate factory action ever.

The Savage 10/110 BA Stealth, for example, is as radical as the extreme accuracy it delivers. Its modular design enables the operator to customize it to mission-specific demands by selecting from a virtually infinite array of aftermarket accessories.

TARGET SERIES

Anyone who shoots a rifle expects accuracy. But there is a special breed of accuracy enthusiast who forever chases the one-hole group. Once they attain it, they begin to chase that group at longer and longer ranges. Perhaps the most elite collection of these accuracy purists are the shooters of Team Savage. We're proud to say they compete with Savage target rifles.

With multiple decisive world-class titles to their credit, the firearms in the series are elite rifles for the elite shooters who want to test their skills on the ultimate playing field: the 1,000-yard range.

PRECISION ACTIONS

There is a reason when gunsmiths build a custom rifle for a client they choose a Savage action as a base for the build. No other action gives the stiffness to maintain accuracy, and only Savage has the AccuTrigger™. Actions are available with both standard and .223 bolt heads and in three configurations: Right Bolt/Right Port, Right Bolt/Left Port, and Dual Port. The stainless Precision Target Actions also come with the Target AccuTrigger™, adjustable from 6 ounces to 2.5 pounds. Actions include the bolt assembly, AccuTrigger assembly, barrel locknut, recoil lug and trigger guard.

TARGET ACTIONS INCLUDE:

Bolt Assembly + Trigger Group Assembly + Barrel Locknut + Recoil Lug & Trigger Guard + TARGET AccuTrigger

PART #	BOLT HEAD	EJECTION PORT	CAPACITY	MSRP

A woman with long brown hair, wearing a camouflage baseball cap, a camouflage jacket, and a colorful patterned scarf, is holding a Savage Axis rifle. She is standing in a forest with birch trees and yellow autumn foliage in the background. The rifle has a black scope and a purple and pink camouflage pattern on the stock. A red banner is at the bottom of the image.

AXIS SERIES

Due to its affordability, the AXIS is often a hunter's first exposure to the world of Savage. Knowing that, we believe it should be representative of the dependability and accuracy for which Savage is renowned. So, in case you're wondering how we can make the AXIS in the USA and still save you money without sacrificing quality or performance, here's the secret: We didn't design a cheaper rifle, we designed a better, more efficient way to make a Savage.

MSR SERIES

Savage Arms' new line of next-generation semi-autos takes the popular AR platform to new heights, offering greater performance, expanded caliber choices and edgy designs, plus a full suite of custom upgrades packaged as standard features. The MSR family includes hard-hitting MSR 10s that make shooters' dreams of lightweight, high-powered big game performance and long-range tactical domination a reality. The lineup's MSR 15 models deliver accuracy and performance that mass-produced, mil-spec M4 clones can't touch. Now, MSR stands for Modern Savage Rifle.

SINGLE-SHOT RIMFIRE SERIES

The best way to learn to shoot well is one shot at a time. Single-Shot Rimfire Rifles are perfect for new shooters all the way up to those who want to perfect the art. That's why our selection of single-shots are not toys. They have serious big-gun features like an adjustable AccuTrigger™, button-rifled barrels and even adjustable peep sights in some models. Sure, you've only got one shot, but with a Savage, one shot is all you need.

MARK II SERIES

22 LR Rifles tend to run on the small side. But they are still a really big deal to us. That's why we have so many different configurations, from general-purpose plinkers to scoped packages, to every specialty configuration you can imagine. All have precision button-rifled barrels and most have an adjustable AccuTrigger. Why? Because to us, it's not "just a 22." It's a Savage.

MAGNUM SERIES

The 22 WMR cartridge featured in the Model 93 gives 22 lovers an option with a little more punch. And the Savage Model 93 Series gives shooters even more options: basic plinkers, target models, scoped rifle packages, you name it. And with features like button rifled barrels and an adjustable AccuTrigger, you can make sure you deliver that punch with Savage Accuracy.

Some Savage customers order non-cataloged items to their own specifications. In certain cases, these specifications may exclude the AccuTrigger™.

SPECIFICATIONS SUBJECT TO CHANGE WITHOUT NOTICE.

B SERIES

Savage has added to its line of modern new firearms with the B17, B22 and B22 Magnum bolt-action Rimfire Rifles. The new line was conceived with the mindset that the better a gun fits you, the better you shoot it. To that end, the rifles offer a precision fit, thanks to an ergonomically designed stock, higher comb, top tang safety and target-style vertical pistol grip. Combined with a 10-round rotary magazine and user-adjustable AccuTrigger™, B Series Rifles are set for unbeatable accuracy.

A SERIES

Savage Arms™ continues its track record of innovation with the A-Series, the first high-performance semi-automatic rimfire system specifically designed for magnum cartridges. The A-Series delayed blow-back action provides safe, reliable operation with standard magnum loads. The hard chrome bolt, case-hardened receiver, 10-round rotary magazine and button-rifled barrel boost performance even further, while the user-adjustable AccuTrigger™ provides a crisp, light pull for the best possible accuracy.

MODEL 42

Way more than a novelty, the Model 42 Takedown shotgun-rifle combo is the ultimate survival, truck, camping and more gun! It breaks down with the simple push of one button and includes an Uncle Mike's Go Bag so you can easily transport it anywhere.

MODEL 42 TAKEDOWN

Shotgun-Rifle Combo + Black Synthetic Stock + Open Sights + Blued Satin Finish
Length of Pull = 13.5" / Compact Length of Pull = 12.5"

The Model 42 Takedown is an easy-to-use break-open combo gun that fires rimfire rounds from the top barrel and .410 bore shotgun shells from the bottom. The compact model's length-of-pull is short enough and its recoil is light enough that it makes a perfect starter gun for young shooters.

STEVENS SHOTGUNS

Our Stevens brand of firearms is, without a doubt, the definition of value. Stevens Shotguns are imported from overseas partners who work closely with Savage to provide great quality at affordable prices. The current selection offers pump shotguns in both field and security models. Looking for an over/under configuration? We have that too.

So, whether you're looking for a kid's first firearm or a way to affordably add a different platform to your collection, Stevens has you covered.

FOX A-GRADE SHOTGUNS

The iconic side-by-side is the newest member of the Fox family, which began in 1905, when Ansley Fox set out to create the finest gun in the world, and continued when the manufacturing was handed off to Savage Arms in 1929. It is a replica of the original Fox A Grade sold by Savage that year, with additional features and components that ensure peak performance for today's hunter. It handles gracefully, points naturally and hits hard, with the same style that has made all Fox shotguns the envy of collectors and serious shooters.

FOX A-GRADE

Double Triggers and Automatic Safety + Bone and Charcoal Case Color-Finished Receiver + Polymer Carrying Case + Anson Deeley-Style Box Lock Action, Side-By-Side Shotgun + Holland & Holland-Style Ejectors + Front Brass Bead Sight + American Black Walnut Stock With Oil Finish and Precision-Cut Checkering + Straight Buttstock Grip and Splinter Fore-End + 26- or 28-Inch Barrels with Solid Game Rib + Includes Interchangeable Improved Cylinder, Modified and Full Chokes
Length of Pull = 14.5"

PART #	CALIBER	BARREL LENGTH	CHAMBER	OVERALL LENGTH	CAPACITY	WEIGHT (LBS)	MSRP
